

Hamilton-Wentworth Catholic District School Board
Believing, Achieving, Serving

September 2018

Dear Parents/Guardians:

Welcome to another exciting school year!

The Hamilton-Wentworth Catholic District School Board is delighted to provide another year of home access to **e-math+** for all students in Grades 3-6 and their parents/guardians at no cost.

e-math+ is an online tool to support mathematics learning outside of the classroom. It was developed to complement the *Nelson Mathematics* textbook used at school, and includes features to support both you and your child.

Within **e-math+** you will find tools designed to help you understand the mathematics your child is learning at school so you'll be prepared if your child asks for help with their homework. It also includes tools your child can access that offer additional support and extra practice to help them reinforce their learning.

Your child has already been registered **for e-math+** at school so you're ready to get started using **e-math+** at home today!

To access **e-math+**, follow these three easy steps:

1. Go to www.mynelson.com
2. The account your child created is meant to be shared with you. To log in, enter your child's email address and password that is recorded on a sticker in their agenda, and click 'Login'.
3. From your dashboard, click on the grade level of **e-math+** you would like to access.

To learn more about **e-math+** and how to use the many features available, visit www.nelson.com/emathplus and click on *Getting Started* in the navigation menu.

If you require additional support accessing or using **e-math+**, please contact Nelson Customer Support at nelson.schoolebooks@nelson.com.

If you have any questions about **e-math+**, please do not hesitate to contact your child's classroom teacher.
